

## IMAGING SOLUTIONS

TXR manufactures a complete line of radiographic systems for hospitals, imaging centers, private practitioners, chiropractic and veterinary practices.

TXR digital systems offer the best value and far-reaching warranties.

At TXR you will find a very basic table to one of the most robust elevating tables available on the market.

Our tube mounts range from a high quality hospital grade CTM to an in between floor mount to a simple floor/wall or ceiling stand tube mount.

TXR high frequency generators are available in outputs of 32, 40, 50, 64 or 80 kW. The TXR standard frequency generators have an output of 400 or 500 mA, delivering the added power to penetrate heavier patients.

### **TXR Mission Statement**

Provide prompt delivery of reliable, high quality, cost effective imaging systems to fill the needs of the world wide market.
